

Certificate of Participation

Naidu Niraj Sujit

participated on **10 July 2026**
in the MINT.4E study orientation program
From Idea to Reality through 3D Printing
held in the 3D Printing Laboratory of the Faculty of Chemistry.

Program Topics:

- Practical insights into the study program of Chemistry and related career opportunities.
- Development of digital models and production of prototypes in the 3D printing laboratory.

The program aimed to provide young people with insights into the academic content of the Faculty of Chemistry. Another objective was to introduce participants to important academic contacts who can support the transition into a STEM degree program. The program also provides guidance and orientation for future university studies after completing secondary education.

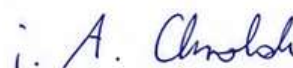

Location:

University of Duisburg-Essen
Co Creation Lab Product Innovations (CCLP)
Schützenbahn 70
45127 Essen, Germany

Dipl.-Ing. (FH) Christoph Hohoff
Project Lead, MINT.4E Project
zdi-Zentrum MINT-Netzwerk Essen
FOM University of Applied Sciences

Essen, 10 July 2026

Thomas Chrobok M.A.
Scientific Associate
FOM University of Applied Sciences
